

SEPA Threshold Determination of Non-Significance (DNS)

Date of Issuance: May 14, 2021

Record Number: SDT2021-00403

Project Description: The 2022-2027 Transportation Improvement Plan (TIP) that identifies transportation capital improvement programs and projects the City foresees undertaking over the next six years, in a financially constrained environment.

Applicant/Proponent: Doug McIntyre, Department of Public Works, City of Sammamish

Project Location: The TIP would apply to the jurisdictional boundary of the City of Sammamish

Lead Agency: City of Sammamish, Department of Community Development

Online Documents: <https://spaces.hightail.com/space/2PqV8wLFOK>

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment, in that the TIP by itself does not authorize projects to move forward, nor does it provide funding for any projects on the list; for that to occur individual projects and programs are approved and funded through the City's biennial budget process. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 14 days from the date below. Comments must be submitted in writing and received by the deadline described below. Pursuant to SMC 20.15.130 there is no administrative appeal process for this action.
