2022 Annual Report Section

Executive Summary

Economy: Inflation as measured by CPI-U continues to be a major concern, although the year over year increase has slowed a bit since June. The year over year increase on the national level was 6.5% and it was 8.4% for the Seattle-Bellevue-Tacoma area in December, according to the U.S. Bureau of Labor Statistics. The unemployment rate was 3.5% on the national level and it was 2.5% for Sammamish in December. Seattle-Tacoma-Bellevue area home prices declined in the second half of 2022 and finished the year 1.8% below the prior year, according to the Case-Schiller, not seasonally adjusted index.

Revenues: Total revenues for the year are \$1.3 million above 2021 levels. Some individual variances are briefly explained below:

- Taxes in total are slightly more than they were for last year. Variances by type of tax are outlined below:
 - *Property tax revenue is \$2.0 million higher for the year compared to 2021. This variance is due to taking the remaining banked capacity, the allowable 1% annual increase and to new construction.
 - *Sales taxes, including both general sales taxes and the City's share of criminal justice sales taxes are \$0.7 million higher compared to 2021. The year over year increase is primarily due to an increase in tax revenues from the contracting and the services sectors. Much of this increase is likely due to inflation causing higher prices and therefore more sales tax revenue.
 - *Real Estate Excise Tax revenue for the year is down over \$2.6 million compared to 2021. The median sales price on real estate this year is \$1.47 million, a 5% year over year increase, yet there has been a 39% decrease in the number of homes sold (from 1,453 to 887 this year).
- Licenses/Permits and Charges for Goods & Services categories need to be combined to be compared to prior years as some development revenue accounts have moved between these categories. Combined, these two revenue categories are \$2.5 million higher for 2022 compared to 2021.
- Intergovernmental revenues are \$3.0 million lower in 2022 than in 2021. The year over year reduction in revenue is primarily due to the receipt of a two large grants in 2021, one for \$1.6 million from the WA State Department of Transportation and one for \$1.5 million from King County Conservation Futures.
- Miscellaneous revenues are \$1.7 million higher in 2022 than in 2021 mainly due to receiving \$1.1 million more in interest income and also from compensation on an insurance claim of \$0.5 million in 2022.

Expenditures: Total expenditures for the year are \$7.7 million lower than 2021. Personnel costs are \$1.7 million higher than last year, due to regular step and COLA increases, yet these costs finished the year below budget due to vacancies. Police and fire contract spending is higher year over year by \$0.4 million due to higher year over year contracted cost increases. Expenditures on debt servicing are \$0 for the year as the debt was paid off in 2021. Capital spending is down year over year largely due to over \$7 million spent from the Transportation Capital Fund on Issaquah Fall City Road in 2021. Capital spending finished the year only spending 18% of the annual budget primarily because park's only spent 6% of their annual budgeted amount.

Combined Total: For the year, for all funds, the City's total revenue was \$1.3 million higher than 2021 and the expenditures were \$7.7 lower than 2021, for a combined \$9.0 million improvement compared to 2021. In addition, the City had budgeted to spend \$9.9 million more than revenues, but instead total revenues exceed actual expenditures by \$20.0 million, primarily due to capital spending.

City of Sammamish Sales Tax Annual Sales Tax Report

There is typically a two-month lag in sales tax reporting, however, this report was completed a few months after the calendar year ended and revenues have been accrued to the month where they were earned.

Retail sales tax revenue for the City of Sammamish grew an average of 4.7% per year between the years of 2018 and 2022. The highest positive change occurred between 2020 and 2021 and the biggest decline occurred between 2018 and 2019. Sales tax revenues received by the city were also impacted by a 2018 Supreme Court case where it was ruled that online purchases would be taxed and the tax would be distributed to the location where the product was shipped. Inflation for the Seattle-Tacoma-Bellevue area has also influenced the amount of sales tax revenue the city has received. The CPI-U has been included in the table and chart shown below and it can be assumed that as the costs of goods rise, the city receives a larger amount of tax revenue in each category. Some observations related to the data are included below:

General Merchandise/Miscellaneous Retail is a large category containing the majority of purchased goods. This category grew 13.9% annually, on average, between 2018 and 2022 primarily due to an increase in online purchases. In particular, purchases of home furnishing, clothing and accessories, home decor, electronics, sporting goods and items classified as general merchandise have led the increase within this category.

Contracting was the category the city received the most sales tax from back when the city was growing and constructing many homes. Between 2018 and 2020 the amount of revenue received from this category declined as there were a few building moratoriums and an overall decline in local construction. In the last couple of years, revenue from this category has started to increase, but has not yet reached the level seen in 2018.

Services sales tax revenue grew an average of 12.0% per year between 2018 and 2022. The main contributor to the growth within this sector is from a sub-category called Administrative and Support. This includes all sorts of business, office, facilities and other types of services, with the main contributor due to expanded technology services.

Wholesale tax revenues have increased 12.7% annually between 2018 and 2021, with the majority of this increase occurring prior to 2022.

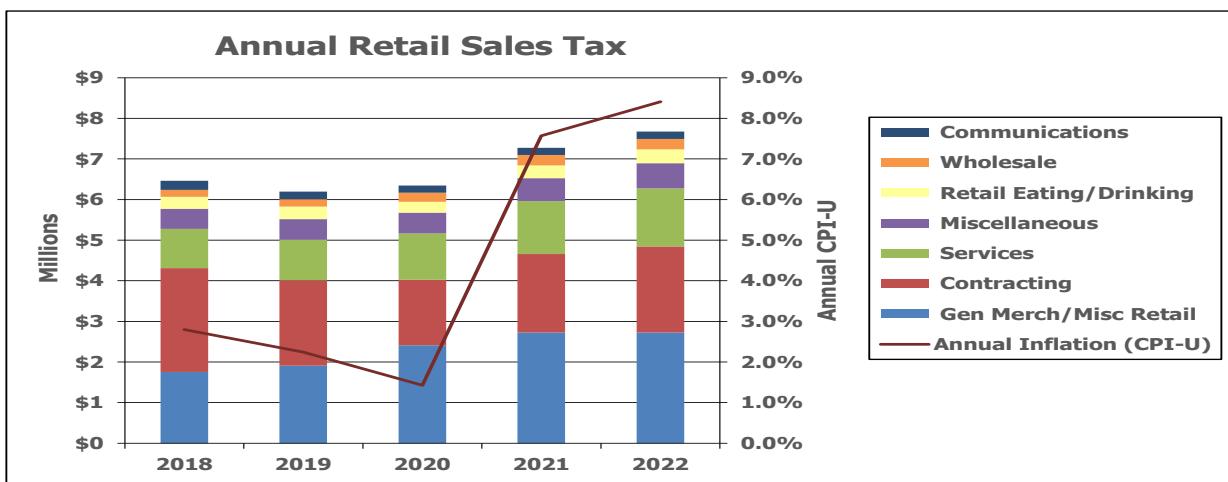

Miscellaneous sales tax revenue increased at an average annual rate of 6.3%, primarily as a result of higher sales related to businesses within the finance, real estate, transportation and warehousing sectors.

Retail Eating/Drinking sales tax revenues grew at an average annual rate of 4.0%. This is due both higher sales at some establishments and to increasing prices due to inflation.

Communications shows an average annual decline in sales tax revenue of 4.5%. This is primarily due to consumers changing their communication preferences.
