19A.12.010 Purpose.

The purpose of this chapter is to specify the requirements for the division of land through short subdivisions and subdivisions, in accordance with applicable Washington State and City of Sammamish laws, rules and regulations, including permit processing procedures required by SMC Title 20. (Ord. O2010-284 § 2 (Att. A))

19A.12.020 Preliminary approval of subdivisions and short subdivisions – Filing of final plat or final short plat.

(1) Preliminary subdivision approval shall be effective for the period of time set forth in RCW 58.17.140, as currently enacted or as may be subsequently amended, and preliminary short subdivision approval shall be effective for the same period of time as a subdivision approval. If any condition is not satisfied and/or the final plat or final short plat is not recorded within the approval period identified herein, the subdivision or short subdivision shall be null and void. If all conditions have been satisfied and all required documents have been submitted within the approval period, the department may grant a single extension of up to 90 days for the processing and recording of the final documents.

(2) Preliminary subdivision or short subdivision approval shall be considered the basis upon which the applicant may proceed toward development of the subdivision or short subdivision and preparation of the final plat or short plat subject to all the conditions of the preliminary approval.

(3) If the final plat is being developed in divisions, and final plats for all of the divisions have not been recorded within the time limits provided in this section, preliminary subdivision approval for all unrecorded divisions shall become void. The preliminary subdivision for any unrecorded divisions must again be submitted to the department with a new application, subject to the fees and regulations applicable at the time of submittal. - (1) A maximum of nine lots may be created by a single application.
- (2) An application for further division may not be submitted within five years after recording, except

through the filing of a subdivision application or unless the short plat contains fewer than nine lots, in which case an alteration application may be submitted to create a cumulative total of up to nine lots within the original short plat boundary.

(3) A maximum of nine lots may be created from two or more contiguous parcels with any common ownership interest. (Ord. O2010-284 § 2 (Att. A))

19A.12.040 Revisions of preliminary short subdivisions and subdivisions.

Applications to revise short subdivisions or subdivisions that have received preliminary approval shall comply with the following:

Short subdivisions shall be reviewed as a Type 2 land use decision and subdivisions as a Type 3 land use decision pursuant to SMC 20.05.020. For the purpose of this section, substantial change includes the creation of additional lots, the elimination of open space, substantial change in access, drainage adjustment applications for projects subject to “full drainage review” or “large project drainage review” in Chapter 13.10 SMC, or changes to conditions of approval on an approved preliminary short subdivision or subdivision.

(2) Approval of the following modifications by the department shall not be considered revisions:

(a) Engineering design, unless the proposed design alters or eliminates features required as a condition of preliminary approval.

(b) Changes in lot or tract dimensions that are consistent with SMC Title 21A.

(c) A decrease in the number of lots to be created so long as the decrease allows for future compliance with the minimum density provisions of SMC Title 21A, if applicable.

(3) The department shall have the authority to administratively review and approve modifications described in subsection (2) of this section through review procedures established by the department. (Ord. O2021-533 § 2 (Att. B); Ord. O2010-284 § 2 (Att. A))

Chapter 19A.24 BOUNDARY LINE ADJUSTMENTS

Sections:

- [19A.24.010](#) Purpose.
- [19A.24.020](#) Procedures and limitations of the boundary line adjustment process.
- [19A.24.030](#) Final approval and recording required.
- [19A.24.040](#) Boundary line agreement.

19A.24.010 Purpose.

The purpose of this chapter is to provide procedures and criteria for the review and approval of adjustments to boundary lines of legal lots or tracts in order to rectify defects in legal descriptions, to allow the enlargement or merging of lots to improve or qualify as a building site, to achieve increased setbacks from property lines or sensitive areas, to correct situations wherein an established use is located across a lot line, or for other similar purposes. (Ord. O2010-284 § 2 (Att. A))

19A.24.020 Procedures and limitations of the boundary line adjustment process.

Adjustment of boundary lines between adjacent lots shall be consistent with the following review procedures and limitations:

- (1) Applications for boundary line adjustments shall be reviewed as a Type 1 permit as provided in Chapter 20.05 SMC. The review shall include examination for consistency with SMC Title 21A, the shoreline master program including SMC Title 25 and for developed lots building and fire codes and may include review by the applicable agency for department of health regulations and water and sewer district requirements;
- (2) Any adjustment of boundary lines must be approved by the department prior to the transfer of property ownership between adjacent legal lots;
- (3) May require modification or sharing of access from public works to be approved by the City engineer;
- (4) A boundary line adjustment proposal shall not:
 - (a) Result in the creation of an additional lot;
 - (b) Result in a lot that does not qualify as a building site pursuant to this title;
 - (c) Reduce conforming lot dimensions such as area or width to nonconforming dimensions;
 - (d) Reduce the overall area in a plat or short plat devoted to open space;
 - (e) Result in a lot that previously met sewer/water district standards for sewer/water service no

longer meeting district standards;

(f) Be inconsistent with any restrictions or conditions of approval for a recorded plat or short plat;

(g) Involve lots which do not have a common boundary; or

(h) Circumvent the subdivision or short subdivision procedures set forth in this title. Factors which indicate that the boundary line adjustment process is being used in a manner inconsistent with statutory intent include: numerous and frequent adjustments to the existing lot boundary, a proposal to move a lot or building site to a different location, and a large number of lots being proposed for a boundary line adjustment;

(5) The elimination of lines between two or more lots for the purpose of creating a single lot that meets requirements as a building site shall be considered an adjustment of boundary lines and shall not be subject to the subdivision and short subdivision provisions of this title; and

(6) Recognized lots in an approved site plan for a conditional use permit, special use permit or commercial site development permit shall be considered a single site and no lot lines on the site may be altered by a boundary line adjustment to transfer density or separate lots to another property not included in the original site plan of the subject development without additional conditional use permit, special use permit or commercial site development review and approval. (Ord. O2010-284 § 2 (Att. A))

19A.24.030 Final approval and recording required.

(1) A title insurance certificate updated not more than 30 days prior to recording of the adjustment, which includes all parcels within the adjustment, must be submitted to the department with boundary line adjustment final review documents. All persons having an ownership interest within the boundary line adjustment shall sign the final recording document in the presence of a notary public.

(2) Final boundary line adjustment documents shall be in a form prescribed by the department and be reviewed and approved by the department prior to recording with the King County auditor. Lot lines within lots under the same ownership will be adjusted upon the recording of the boundary line adjustment and submittal to the City of the recorded boundary line adjustment documents. Lot lines within lots under different ownership shall be adjusted upon submittal to the City of the recorded boundary line adjustment and real estate conveyance documents transferring ownership of the adjusted land area. Approved boundary line adjustment approvals shall expire if the approved boundary line adjustment and real estate documents transferring property ownership are not recorded and a copy submitted to the City within one year from the date of approval.

(3) Final record-of-survey document must be prepared by a land surveyor in accordance with Chapter 332-130 WAC and Chapter 58.09 RCW. The document must contain a land surveyor's certificate and

a recording certificate.

(4) The final map page shall contain the following approval blocks:

(a) The King County department of assessments; and

(b) The City of Sammamish department of community development. (Ord. O2010-284 § 2 (Att. A))

19A.24.040 Boundary line agreement.

Whenever a point or line determining the boundary between two or more parcels of real property cannot be identified from the existing public record, monuments, and landmarks, or is in dispute, as evidenced by survey performed by a land surveyor as defined by SMC [19A.04.200](#) that demonstrates the following:

(1) The current legal description incorrectly identifies a property line location that is inconsistent with a location recognized by property owners through established use; or

(2) There is a defect in the recorded legal description that creates gaps or overlaps between existing lot lines;

the landowners affected by the determination of the point or line may resolve any dispute and fix the boundary point or line by the procedure below, in conformance with RCW 58.04.007.

If all of the affected landowners agree to a description and marking of a point or line determining a boundary, they shall document the agreement in a written instrument, using appropriate legal descriptions and including a survey map, filed in accordance with Chapter 58.09 RCW. The written instrument shall be signed and acknowledged by each party in the manner required for a conveyance of real property. The agreement is binding upon the parties, their successors, assigns, heirs and devisees and runs with the land. The agreement shall be recorded with King County, and a copy of the recorded boundary line correction and/or agreement shall be submitted to the City for the record. (Ord. O2010-284 § 2 (Att. A))
